Re: NPDES General Permit No. ING490079
Kokomo Gravel, Inc.
2969 East Paw Paw Pike
Peru, Indiana, Miami County

Dear Mr. Bowyer:

Our office has received your Notice of Intent (NOI) submittal in regards to the above referenced facility's Outfall 001 discharging to the Wabash River. We are pleased to inform you that the submittal is sufficient to comply with the NOI requirements in 327 IAC 15-12, Facilities Engaged in Sand, Gravel, Dimension Stone, or Crushed Stone Operations. The general permit rule requirements are contained in 327 IAC 15-1 through 15-4 and 15-12. Coverage for the facility will include all outfalls listed in Attachment 1 to this correspondence.

The NPDES general permit identification number assigned to this facility in the previous approval will be used again in this approval. This number will be used as an identification number and should be included on all correspondence submitted to IDEM in relation to this NPDES general permit. The NPDES general permit number which has been assigned to this facility is:

ING490079

Due to the fact that 327 IAC 15-12 is a permit by rule, you will NOT be receiving an actual permit. However you will be responsible for following the general rule requirements contained in the 327 IAC 15-1 through 15-4 and 15-12, which were sent to you with your original approval letter. Included in general permit rule 327 IAC 15-12 is the requirement for periodic reporting of several effluent parameters. This reporting will continue to be required using the forms that were sent to you previously. Should you need additional copies of this form it is also available on the internet at the following web site:

<http://www.in.gov/idem/5104.htm>

327 IAC 15 is also available on the internet at the following website:

<http://www.in.gov/idem/4087.htm>

Mr. Mike Bowyer

Additionally, you will soon be receiving a supply of the computer generated preprinted federal NPDES DMR forms. Both the state and federal forms need to be completed and submitted on a routine basis. If you do not receive the preprinted DMR forms in a timely manner, please call this office at 317-232-8670.

Since the expiration date of IDEM's previous approval of your facility to operate under 327 IAC 15-12 is **December 31, 2010**, this renewal of coverage under 327 IAC 15-12 shall become effective on **January 1, 2011**, unless a person aggrieved or adversely affected by the acceptance appeals this decision. Coverage under this general permit rule expires on **December 31, 2015**. In order to receive authorization to discharge beyond the date of expiration, the permittee shall submit such information and forms as required by the Indiana Department of Environmental Management no later than ninety (90) days prior to the date of expiration.

Please note that any person who is adversely affected or aggrieved by this acceptance for coverage under the cited NPDES general permit rule may, within eighteen (18) days from the mailing date of this notification, appeal this acceptance by filing a written petition for administrative review with the Office of Environmental Adjudication, in accordance with IC 4-21.5-3-7. This petition constitutes a request for an adjudicatory hearing. The procedure for appeal is outlined in more detail on the attached page.

The Office of Environmental Adjudication will provide parties who request review of this acceptance for coverage with notice of prehearing conferences, preliminary hearings, hearing, and stays or orders disposing of all proceedings. Nonparties may receive such notices without intervening and formally becoming parties in the proceeding by requesting copies of such notices from the Office of Environmental Adjudication.

Please note that in accordance with 327 IAC 15-12-5(c), IDEM shall public notice its decision to accept your facility for coverage under the general permit rule.

If you have any questions regarding this letter, please contact Mr. Joe Gwinn of our staff at (317) 233-8769.

Sincerely,
